

The thought of of trying to change Satellite Radio Broadcasts is ugly. We purchased sateliite radio because it had many channels to choose from, much like cable tv has. We PAY for the choices that we made and now someone wants to take them or change them. NOT VERY FAIR TO THE CONSUMER I'D SAY! Leave satellite radio alone! America is about choices and satellite radio gives us choices. If we are willing to PAY for them then we should have what we pay for!
